PROFESSIONAL SUMMARY

Backend Developer with professional experience building and deploying scalable RESTful APIs. Experienced in authentication and authorization, JWT, OAuth 2.0, RBAC, API security, real-time communication, payment integration, and third-party API integration. Skilled in data modeling, backend architecture, API development, and cross-functional collaboration to deliver reliable backend systems for client-facing products.

CORE SKILLS

- **Backend:** Node.js, NestJS, Express.js, TypeScript, RESTful APIs, Backend Architecture, Microservices
- **Databases:** MongoDB, Mongoose, PostgreSQL, Redis
- **Security:** JWT, OAuth 2.0, RBAC, Zod
- **Real-Time & Processing:** Socket.IO, BullMQ, Node-cron
- **Tools & Infrastructure:** Docker, Git, GitHub, Basic Deployment
- **Integrations:** AI Integrations & Third-Party APIs

PROFESSIONAL EXPERIENCE

Backend Developer - Scaleup IT Limited | Mohakhali, Dhaka | Mar 2025 - Present

- Design and deploy scalable RESTful APIs for multiple client-facing products, supporting reliable and high-availability.
- Optimize MongoDB database queries using data-modeling best practices to improve NoSQL query efficiency.
- Implement secure authentication and authorization using JWT and role-based access control (RBAC).

Full Stack Developer - Arabian Services Company | Banani, Dhaka | June 2024 - Jan 2025

- Delivered the company's primary web platform by leading full-stack development across core application features.
- Built authentication and data-synchronization systems using the Node.js ecosystem to support core application workflows.
- Implemented real-time notification functionality using Node.js-based real-time technologies.

PROJECTS

Freelance Platform - Creative Freelance Marketplace Platform - Github

- Developed RESTful APIs for a marketplace covering gigs, job posts, orders, reviews, and administrative workflows.
- Orchestrated Stripe payment processing to support secure marketplace transactions.
- Established OTP-based authentication and account recovery workflows.
- Engineered real-time chat functionality using Socket.IO.

Tech: Node.js, Express.js, MongoDB, Mongoose, JWT, Socket.IO, Cloudinary, Nodemailer, Stripe

Exchange Tracker - Real Time Currency Exchange Rate Engine - Github

- Engineered a real-time exchange-rate engine aggregating live currency data from multiple international markets.
- Integrated third-party financial API integrations with rate limiting, error handling, and data validation.
- Achieved 99.9% data accuracy through validation and reliable API-processing workflows.

Tech: TypeScript, Node.js, Express.js, Financial APIs

EDUCATION

B.Sc. in Computer Science & Engineering

Northern University Bangladesh - CGPA 3.25/4.00, 2026

Diploma in Computer Technology

Moulvibazar Polytechnic Institute - CGPA 3.18/4.00, 2022
