PROFESSIONAL SUMMARY

Backend Developer with 2+ years of professional experience building and deploying RESTful APIs with Node.js, NestJS, Express.js, and TypeScript for client-facing products. Hands-on experience with JWT authentication, role-based access control (RBAC), MongoDB data modeling, real-time communication with Socket.IO, Stripe payment integration, and third-party API integration. Experienced in both backend-focused and full-stack roles, working with cross-functional teams to deliver reliable backend systems.

TECHNICAL SKILLS

Backend: Node.js, NestJS, Express.js, TypeScript, Backend Architecture, Server-Side Development, Laravel (familiar)

Databases: MongoDB, Mongoose, PostgreSQL, Redis, NoSQL, SQL, Data Modeling

Authentication & Security: JSON Web Token (JWT), OAuth 2.0, Role-Based Access Control (RBAC), Authentication & Authorization, API Security, Zod (Input Validation)

Real-Time & Background Processing: Socket.IO (WebSockets), BullMQ (Job Queues), Node-cron (Scheduled Tasks)

Integrations: Stripe (Payment Integration), Third-Party APIs, AI Integrations, Cloudinary, Nodemailer

Tools & Infrastructure: Docker, Git, GitHub, Basic Deployment

WORK EXPERIENCE

SCALEUP IT LIMITED

Backend Developer

Mohakhali, Dhaka, Bangladesh

Mar 2025 - Present

- Design, build, and deploy scalable RESTful APIs with Node.js, NestJS, Express.js, and TypeScript for multiple client-facing products.
- Implement secure authentication and authorization using JWT and role-based access control (RBAC) to protect API endpoints.
- Optimize MongoDB queries and schema design using data-modeling best practices to improve NoSQL query efficiency.
- Validate incoming request data with Zod to enforce consistent API contracts and improve API reliability.
- Integrate third-party and AI APIs into backend services, and use Docker for consistent development and deployment environments.
- Collaborate with frontend developers and project stakeholders to deliver and maintain backend features for client products.

ARABIAN SERVICES COMPANY

Full Stack Developer

Banani, Dhaka, Bangladesh

Jun 2024 - Jan 2025

- Led full-stack development of the company's primary web platform, delivering core application features end to end.
- Built authentication and data-synchronization systems with the Node.js ecosystem to support core application workflows.
- Implemented real-time notification functionality using Node.js-based real-time technologies.

LSKIT

Web Developer Intern

Remote

Nov 2023 - Jan 2024

- Assisted in developing and maintaining responsive web interfaces using modern frontend technologies.
- Collaborated with the team to troubleshoot issues, implement feature updates, and improve overall application functionality.

PROJECTS

FREELANCE PLATFORM

Creative Freelance Marketplace Platform

GitHub: github.com/NurMohammad56/freelance_marketplace

- Developed RESTful APIs for a marketplace covering gigs, job posts, orders, reviews, and administrative workflows.
- Integrated Stripe payment processing to support secure marketplace transactions.
- Built real-time chat functionality using Socket.IO and handled media uploads with Cloudinary.

Tech Stack: Node.js, Express.js, MongoDB, Mongoose, JWT, Socket.IO, Cloudinary, Nodemailer, Stripe

EXCHANGE TRACKER

Real-Time Currency Exchange Rate Engine

GitHub: github.com/NurMohammad56/Exchange_Tracker

- Built a real-time exchange-rate engine that aggregates live currency data from multiple international markets.
- Integrated third-party financial APIs with rate limiting, error handling, and data validation.
- Achieved 99.9% data accuracy through validation and reliable API-processing workflows.

Tech Stack: TypeScript, Node.js, Express.js, Financial APIs

EDUCATION

NORTHERN UNIVERSITY BANGLADESH

B.Sc. in Computer Science & Engineering

2026

CGPA: 3.25 / 4.00

MOULVIBAZAR POLYTECHNIC INSTITUTE

Diploma in Computer Technology

2022

CGPA: 3.18 / 4.00
